

SMOKE RINGS

The key to Claudia's signature black liner is avoiding neatness; making it look lived-in rather than laborious. For the perfect level of smoke, draw tiny dashes of liner around the eye with 'The Joystick, A True Stick Of Joy', £7.50, Claudia, then do as Claudia does and use the accompanying Smudger Brush to blend them together. Heavy liner does have the potential to make eyes appear smaller, thankfully lashings of a lengthening mascara like Hypnose Doll Eyes Waterproof Mascara in Black, £22.50, Lancôme will instantly undo the effect.
