

TOTAL ECLIPSE

There is a school of thought that says your liner shouldn't go past the crease of your eye, however, Winkleman vehemently disagrees and now, so do we. Don't waste time with powdery eyeshadows, only a kohl liner like Soft Touch Shadow Pencil, £18.50, Nars will give you this intense colour density. Simply trace the lash line, draw a half moon just above the crease and colour in the shape between. Finish with a volumising mascara like Pile It On Mascara (part of the 'Use More, Literally Loads' Panda Eye Set), £19.50, Claudia, on both the upper and lower lashes to add dimension.
